WHAT DOES “HEALTHY AGING” MEAN ?

With a Little “Help” You Could Improve:

Mental Clarity ... Movement ... Hair, Skin, Nails
Digestion ... Bones

VITALIZER

VIVIX

AntiAging at the Cellular Level

Vivix is scientifically proven to slow cellular aging. Your cells are attacked over 500 trillion times every minute by our environment, diet and unavoidable cellular wear and tear of simply being alive. The accumulated damage from these attacks causes your cells to age, and when your cells age, you age. Vivix is scientifically proven to keep your cells young so you can live **younger** longer.

Vitalizer supports overall health, including heart, joint, immune, bone, digestive, and physical energy. Based on 12 clinical studies and the Landmark Study, one of the largest studies ever done on long-term supplement users, which showed that Shaklee supplement users had much better biomarkers for heart, brain, and cognitive health compared to non-Shaklee product single supplement users. Vitalizer is the “base” to any supplement program.

Results guaranteed!

MINDWORKS

MORE NEEDS? Shaklee has products for Blood Pressure, Cholesterol, Energy, Weight etc.

The “base” for any supplement program should always include: Vitalizer and Vivix. Be patient ... give it 3 months of consistent, daily use, to get optimum results. Natural rebuilding takes time.

PLUS Shaklee will “guarantee” results or your money back!!

That says a lot about the confidence they have in their products.

THE STORY BEHIND : “CHEAP”

Examples of why “Cheap” is not the best route in the end:

GARLIC:

Are you aware that not all garlic supplements are the same? Most companies take the less expensive route in processing their supplements. Allicin in the ingredient in garlic that gives the majority of the benefits and can be destroyed through processing. Shaklee goes to great lengths to make sure that their garlic is bioavailable. That's a major Shaklee difference and that's why Shaklee can offer 100% money back guarantee on their products. They make sure that all their supplements are bioavailable and can be used effectively when consumed.

Benefits of a quality Garlic:

Studies show that garlic promotes cardiovascular health by helping to retain normal blood pressure and cholesterol levels when used as part of a diet low in fat and cholesterol.

VITAMIN E:

Another important aspect of having products that really work is in the case of Vitamin E. Vitamin E has so many great benefits, however, many of the vitamin E's on the market are the synthetic form of vitamin E. The synthetic form will look like this: "dl-alpha-tocopherol". Supplements that are made from entirely natural sources will come **WITHOUT** the "l" as seen here: d-alpha-tocopherol. This is the only form that Shaklee uses in its products. Many other companies do not because it's not always about health but rather the "bottom line"!

Benefits of a quality Vitamin E:

Vitamin E supports heart, brain, and prostate health and promotes lung, colon, and immune function. Vitamin E is a powerful antioxidant. Shaklee's "natural" Vitamin E provides 400 IU of vitamin E. Selenium is added to provide enhanced support against free radicals.

Dr. Sherry Rogers, MD goes even further and reveals:

Unfortunately, synthetic vitamin E actually works against any natural vitamin E you might get in your diet or against supplements. In other words it becomes a negative.

A few years ago there was negative press on vitamin E and smoking ... guess what they used for their research and testing? SYNTHETIC vitamin E !

FLORA AND FLOW TESTIMONIALS:

Use it everyday! Wonderful product - definitely has restored PH and my comfort level is so much better! I am 69. Nothing else was working and I did not want to go back on a post menopause med to help. Cannot say enough about this product!
June Leatherman

I had my first UTI in my life. (I'm in my 70's). My naturopathic MD recommended D-Mannose which totally upset my stomach and I don't believe it really helped my UTI. I did not want to go on an antibiotic. I wanted to fight it naturally. Along came the introduction of Flora and Flow. It has more D-mannose in it but other ingredients as well. It does not upset my stomach, and it took care of my UTI. Now I use it for maintenance.

If only I had a "Magic wand"! Well, now you do!
